

# Emotiva BasX MC-700, surround sound processor 7.1 4K HDR

The BasX MC-700 is a high-performance surround sound processor that supports 4k UHD HDR video and all the current 5.1 and 7.1 channel surround sound formats. The MC-700 includes six 4k HDMI video inputs, including three that support 4k UHD HDR video – with HDMI 2.0 and HDCP 2.2, as well as multiple analog and digital audio inputs for your other audio sources. The MC-700 can be operated via the simple front panel controls, or by the included infrared remote control, and the intuitive menu system makes it simple to configure and operate using either the large bright blue VFD display on the front panel or the clear, concise on-screen display.

The BasX MC-700 is the perfect choice if you're searching for a way to upgrade the performance of a receiver-based home theater system. It also provides the perfect path to enter the world of high performance, yet affordable component level home theater. The MC-700 delivers fast clean switching for both HD and 4k UHD HDR video, superb sound quality, and a wide selection of advanced features, including our latest generation Emo-Q automatic room correction and loudspeaker equalization system. Paired with a

good power amp, like our BasX A-500 or BasX A-700, a subwoofer, and matching speakers, the MC-700 will deliver the sort of sound quality and control you never thought possible at anywhere near its modest price.

Along with 4k HDMI HDR video, the BasX MC-700 comes standard with a variety of analog and digital audio input options. In addition to that, if you want to play music from a smart phone or other Bluetooth-enabled wireless device through the MC-700, we offer an optional Bluetooth receiver module. This module plugs directly into the back of the MC-700, and supports the latest Bluetooth 3.0 CD quality AptX audio standard.

The BasX MC-700 not only sounds great, but we built it to last, with a heavy-duty steel chassis, solid milled aluminum faceplate, and high-quality parts and construction. We expect you to enjoy your BasX MC-700 for a long time – and we back that up with a full three-year warranty.

The lisbonense [my Hi-Fi House](#) is Emotiva's only official distributor at Portugal.
