

MARTEN AT CES 2014  
INTRODUCING:

COLTRANE  
SUPREME  
III

Welcome to Venetian Suite 29-139  
January 7 - 10

COLTRANE  
SUPREME  
II

After years of designing, constructing, and planning, Leif Olofsson, chief designer at Marten, has finally finished his masterpiece. The Coltrane Supreme 2 - the follow-up to the tremendously successful first edition from 2006 - is the New Master.

Made in Sweden

## SUPREME SESSIONS

To get an absolute reference point, we needed to compare recorded sound to live sound in a controlled environment, so we started the 'Supreme Sessions,' making recordings in our own state-of-the-art studio. By doing the mastering through Coltrane Supreme 2s, we achieved a sound quality that is very difficult to distinguish from what we heard in the live sessions.

A CD called Supreme Sessions will be published in 2014.

Sjöströmska kvartetten at the Marten state-of-the-art studio designed by SMT

Marten chief designer Leif Olofsson and CELL Concept Driver designer Dirk Vaehsen

## ACCUTON

Marten's joint venture with Accuton in the long process of developing the Coltrane Supreme 2s represents a new milestone in high-end audio history. Accuton developed the unique CELL concept drivers. Tweeters, midrange and bass drivers have identical acoustic centres, delivering flawless phase and time coherency. The domes in all of the units are perfectly rigid, for perfect signal settle and piston behavior. And there is incredibly low distortion, in the magnitude of electronic devices, even at high levels.

The result?

The Coltrane Supreme 2 is the New Master.

**JORMA DESIGN**

**CO-EXHIBITOR:  
JORMA DESIGN**

Jorma Design has created something truly exceptional to accompany the Supreme 2 loudspeakers. The Jorma Design Statement is their best cable to date, and it works perfectly together both inside and outside of the Coltrane Supreme 2—there are 60 meters of Statement wiring inside the speakers!

**CO-EXHIBITOR: SMT  
SVANÅ MILJÖTEKNIK**

Svanå Miljöteknik is a highly regarded Swedish company, with years of experience creating acoustic room treatments for studios and audiophiles. For CES, SMT is bringing an inner ceiling to recreate the sound in Marten's state-of-the-art studio.
